About the program

Modern Manners & Mental Fortitude is a 16-week, scenario-based curriculum focused on applied decision-making, real-world communication, and character development. The program was developed from nearly two decades of law enforcement experience and is structured around Social Emotional Learning (SEL) frameworks with an emphasis on transfer — equipping students to apply skills in real-life situations, not just academic settings. It targets high school students and includes instructor materials, pacing guides, scenario libraries, and student activities. The program is designed to be delivered by a certified educator without ongoing involvement from the program developer.
